## Profile

Junior Front End developer looking for first job. I am highly motivated to find solutions to problems and learn new development tools. I have development experience in a small team. Skillful React, RTK, JS, TS, SASS, HTML. Languages English A2, Ukrainian Native speaker

---

## Employment History

React Developer

Dnipro

Feb 2023 - Present

Mod for the game GTA 5. I develop an interface using React, Sass, TypeScript, Parcel. The mod uses CEF which embeds Chromium into the game and allows you to develop an interface using tools for the web. Also used by Rage MP. Rage MP allows you to interact with the game and modify it.

---

## Education

Bachelor's degree, UMSF

Dnipro

Sep 2017 - Jun 2021
